Together, we'll find the perfect solution for you in a personal consultation. Based on your wishes and your natural hair, our experts will recommend the ideal method to achieve your dream hair.

Quikkies

Natural volume or beautiful length without putting stress on your natural hair. The ultra-light Hairdreams tape extensions are the perfect choice for fine hair. Quick and gentle to apply, they offer maximum comfort and can be removed just as gently.

Bonds

Maximum flexibility and a natural feel: the small bondings are discreetly and gently integrated into your natural hair. Thanks to different strand sizes, the system can be tailored precisely to your hair structure for a result that blends seamlessly with your own hair.

DreamWefts

Full length, beautiful volume. These premium wefts made from high-quality human hair are seamlessly integrated into your natural hair, either long-term or just for special occasions. Depending on your preference. DreamWefts are also an ideal solution for fine hair and sensitive scalps.

MicroLines

Instant volume and a renewed sense of confidence. With the unique MicroLines method, we discreetly and permanently fill thinning areas at the crown. The breathable system is securely integrated into your natural hair, creating natural-looking volume and reliable hold in every situation.

Hairdreams Quikkies

Feather-light tape extensions made from high-quality human hair, designed to create beautiful length and natural volume without putting stress on your own hair. With over 40 shades, 9 hair textures and lengths of up to 60 cm, there is a perfect match for every hair type and every style. Quick and gentle to apply, they can be worn for up to 8 weeks and styled beautifully, from relaxed beach waves to sleek, straight looks. After that, the tapes are simply reattached at the roots in our salon.

Quikkies Secrets offer the same benefits as the classic Quikkies, with one key difference. Because the hair starts directly at the adhesive strip, the transition into your natural hair is completely seamless, as if the hair were growing directly from the scalp. This makes them the perfect choice for visible partings and opens up even more possibilities when it comes to styling.

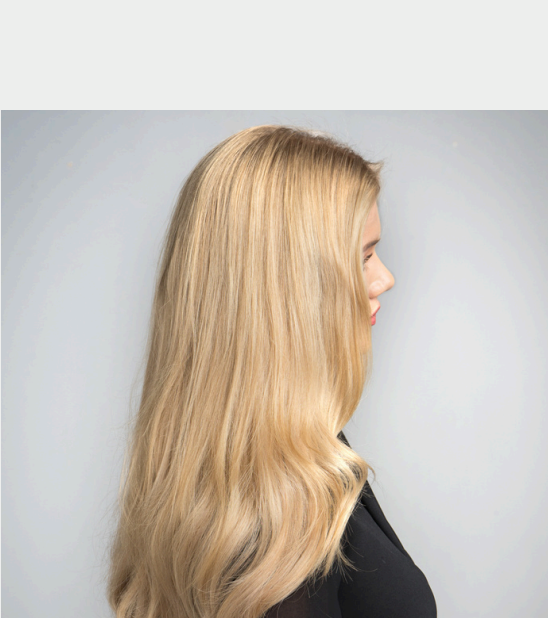

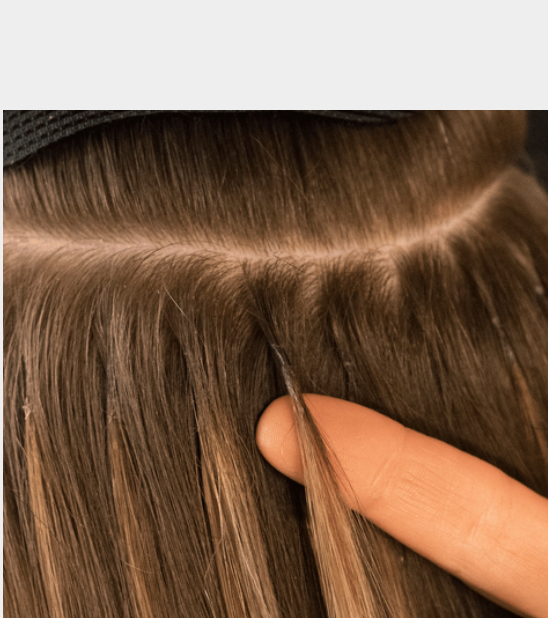

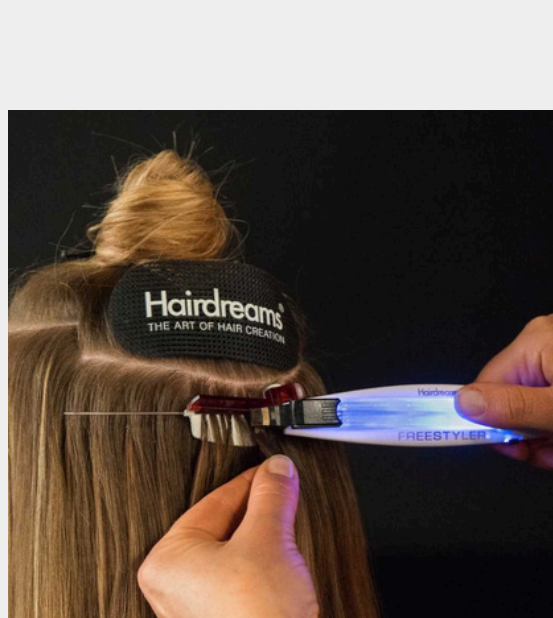

Hairdreams Bonds

Individual strands of high-quality human hair are securely attached to your natural hair using virtually invisible and barely noticeable bonds. This system offers complete freedom in styling, as each strand is applied individually and by hand using the FreeStyler device. The ergonomically shaped bonds ensure exceptional comfort and a beautifully natural hair movement.

With a wide range of strand thicknesses, over 40 shades, 9 hair textures from straight to deeply curly, and lengths of up to 55 cm, the extensions blend seamlessly into your natural hair, as if they have always been there.

Whether you prefer a ponytail, bun or an elegant updo, Hairdreams bonds give you complete styling freedom.

Hairdreams DreamWefts

For stunning hair extensions and beautiful volume, we offer wefts made from ultra-fine bands approximately 80 cm wide, crafted with high-quality human hair. Thanks to a variety of hair lengths, densities and an extensive colour range including highlighted and balayage effects, almost any hairstyle can be achieved.

DreamWefts are available in two different options. During a personal consultation, we will work together to find the one that suits you best.

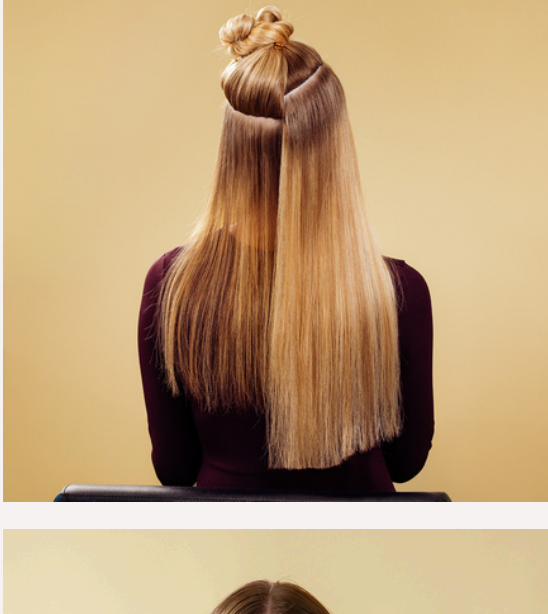

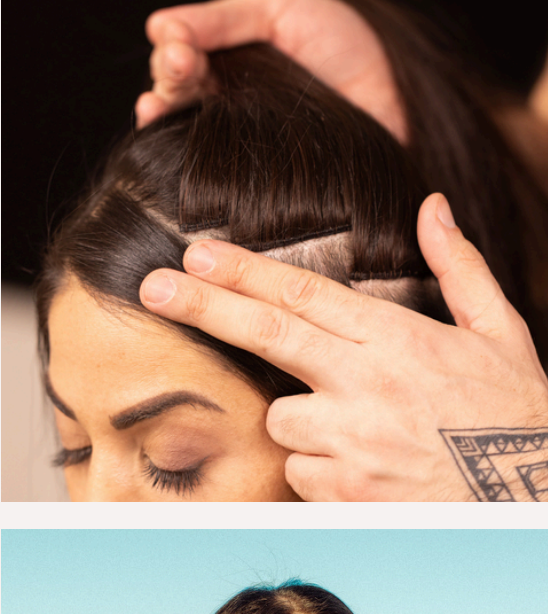

DreamWefts

Seamlessly blended into your hair and incredibly comfortable to wear, the DreamWefts instantly give you a full, long, dream-worthy mane. Depending on the attachment method, they can be worn permanently or just for special occasions – the choice is yours.

DreamWefts ZERO

The DreamWefts ZERO combine all the trusted features of the DreamWefts with one key difference: their ultra-fine edge has no back hair, allowing them to blend in exceptionally discreetly with your natural hair. This makes the ZEROs perfect for anyone who couldn't use other weft systems before.

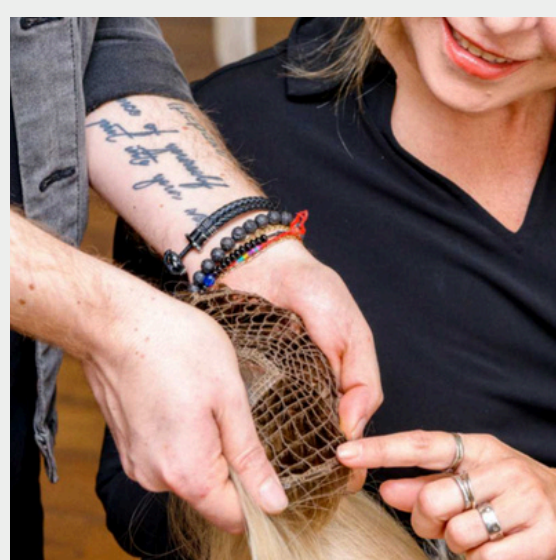

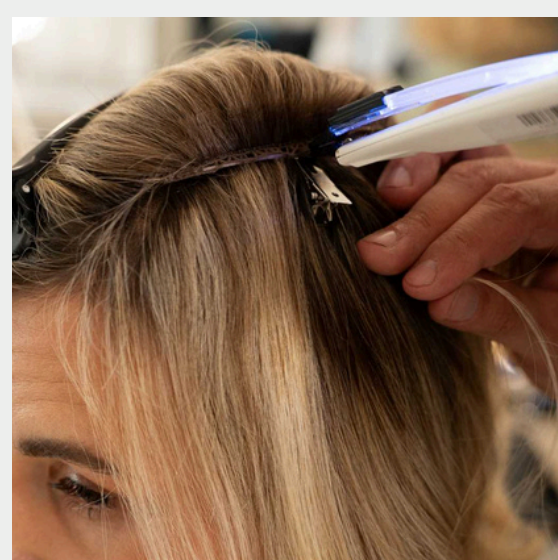

Hairdreams MicroLines

Thinning hair or bald spots on the crown can be incredibly stressful. Hairdreams MicroLines offer a permanent, hair-friendly, and invisible solution – even for significant hair loss. Ultra-fine lines create a mesh onto which high-quality real hair is attached. This mesh is integrated into your natural hair, giving you an even, natural-looking fullness. The advantage over a wig: MicroLines are lightweight, breathable, and barely noticeable – just like your own hair.

MicroLines are a fully tailored solution. From adding subtle volume to achieving full hair density, they come in a wide range of colors, lengths, and styles – including balayage effects. Each model can be custom-made to your specifications if desired.

Depending on your hair quality and care routine, MicroLines can be worn for up to two years. Whether you're exercising, swimming, or in the sauna, your MicroLines stay perfectly in place, accompanying you through your daily life without any restrictions.

Your Journey to Dream Hair

Every hair transformation starts with a personal consultation. Together, we'll analyse your natural hair and discuss your wishes – from colour and length to the fullness you want. Based on this, we'll choose the right system and order the hair for you from Hairdreams.

Once the hair arrives – usually within a few days – it will be professionally applied during a follow-up salon visit. Costs vary depending on the system, hair length, and amount, and we'll go through everything clearly during your consultation.
